low maintenance cricket breeding is finally a reality the number one reason 98 of people give up breeding crickets after a few months is they choose the wrong breeding method most people use conventional methods which require constant spraying feeding and cleaning and simple give up as it s too much effort to make things worse pests take over due to lack of maintenance and the whole system crashes these methods are better suited commercial production not feeding one or two bearded dragons our low maintenance systems are very different with automated feeding and water stations a detritus collection system that does the maintenance for you along with a number of other innovations the result is smarter low maintenance consistent and productive breeding methods for both private and commercial applications the reality is that crickets can now be bred with less time than standing in line at your pet store now there is a true alternative which makes cricket breeding available to everyone why our methods are very differerent after more than a decade of commercial production and experimentation we have pioneered revolutionary techniques that have slashed maintenance eliminated offensive odor and doubled production how would you like automated systems that needs no active management collects waste for you requires only 5 minutes maintenance every 7 10 days less time than standing in line at the pet store food water dispensers that attends to your insects for 14 days or more systems so productive that the average family will be able to feed 4 12 bearded dragons depending of insect feeding rate just from their scrap vegetables that s over 1400 each year completely free good income for the family or teach your kids to build their own business best of all they are easy to build and materials are made from recycled materials or from your hardware breeding your own feeder insects has never been easier with the world s most comprehensive and well researched feeder insects guides with hundreds of photos complementary skype video training along with email support our methods are also available on video at a click of a button full details on our website wildlifehub com how do our systems work in a nut shell we have created two separate zones within a single container conventional techniques require up to 6 separate containers one high humidity area ideal for breeding and a lower humidity area for housing and food water we have also developed a unique detritus collection system which

collects the waste and prevents contamination of breeding substrate and food areas this makes cleaning a breeze eliminates odor and disease increases egg viability and increases cricket production we have water food dispensers which do the feeds for you even when your on holidays unlike other methods which need to be actively managed daily spraying and moving pinheads to new containers our systems run themselves and our cockroach breeding systems are equally unique at reducing maintenance and smells also available on amazon now you can breed both species with ease the most comprehensive guides this manual sets the benchmark for cricket production and contains more than 164 pages 240 color photos that cover s every aspect of private and commercial production in detail that s more than twice the size of any other book on the market we have overhauled every aspect of cricket production including container design breeding food and water requirements making food and water dispensers heating storage maintenance pest management cleaning grading selling lots and lots more commercial production experience turn an expense into income we have bred crickets and cockroaches commercially for 10 years to wildlife parks zoos pet stores wildlife rescue clubs and

why just reuse a bucket when you can reinvent it the new 5 gallon bucket book updates a quirky classic with 30 new ways to take those old buckets and put them to use five gallon buckets are ubiquitous and cheap or even free they are right up there with some of man s best inventions like the wheel and sliced bread sure they can be useful on their own holding stuff or transporting stuff from place to place but that s no fun put them to use around the house garden or farm instead with common tools and the instructions in this book you ll find 60 ideas and projects to make today connect with your inner engineer as you make something for around the home like a shoe rack trash compactor water filter or mousetrap become more self sufficient with a chicken waterer egg incubator nesting box or bee feeder have some fun with an air cannon beanbag toss drum set or washtub bass get creative by dressing your kid up in a bucket costume for halloween making a boat anchor or a set of music speakers grow more in the garden with a sweet potato starter rolling composter japanese beetle trap vermiculture bin or walking watering can as you can see there s no shortage of ways to put these humble and hard working mainstays to work past their prime and keep them out of landfills simple step by step instructions as well as parts lists and images of the completed projects make sure you will have fun and love the

results of your work

a reference for homeowners on appliance and home electronics repairs

this publication is the first based on a joint fao who programme to establish international standards for pesticide quality and it supersedes all previous fao or who manuals and guidance documents published previously it provides the standard process unified requirements and procedures harmonised definitions and nomenclature technical guidelines and standards applicable to pesticides for use in agriculture and public health these specifications apply only to the products of manufacturers whose technical materials have been evaluated

twenty five years ago how many people were thinking about the internet on a daily basis now you can find everything including technical and instruction manuals online but some things never change users still need instructions and warnings to guide them in the safe and proper use of products good design clear instructions and warnings place
